paxtools

for Community Educators

**WE BUILD
GREAT KIDS**

I am excited to use what I have learned today.

This is the best training I have ever attended. I feel like all the Tools are simple and affordable.

Practical solutions, clear explanations.

What is PAX Tools?

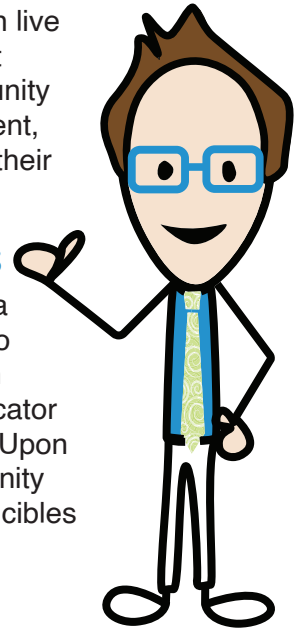

PAX Tools™ is a collection of trauma-informed evidence-based behavioral strategies for families and communities to promote the development of self-regulation in children. Adults who participate in PAX Tools Community Workshops receive the strategies and materials they need to effectively use PAX Tools with children. PAX Tools Community Workshops are presented locally by PAX Tools Community Educators.

How Can I Become A PAX Tools Community Educator?

PAX Tools Community Educator Training is available in live virtual and in-person formats. This training is 8 content hours where participants observe a PAX Tools Community Workshop, participate in teaching sections of the content, and learn how to implement and sustain PAX Tools in their own community!

Resources for Community Educators

An individual who completes this training will become a Certified PAX Tools Community Educator, authorized to present PAX Tools Community Workshops in their own community. Participants in PAX Tools Community Educator Training will receive a manual and a set of PAX Tools. Upon completion of the training, Certified PAX Tools Community Educators receive access to online resources, reproducibles files ongoing technical assistance, and professional development provided by PAXIS.

Who Should Attend PAX Tools Community Educator Training?

Participants might serve in one of the following areas:

- ✓ Parent Educators
- ✓ Health Educators
- ✓ Prevention Specialists
- ✓ Volunteer Coordinators
- ✓ Extension Educators
- ✓ Faith-Based Youth Workers / Volunteers
