formats

As implemented in Boys & Girls Clubs throughout the U.S.

Children exposed to PAX Tools have demonstrated fewer symptoms of depression.

\* $p < .05$  in a Washington State study

## What is PAX Tools for Human Services?

PAX Tools for Human Services is a collection of trauma-informed evidence-based behavioral strategies for adults who work with young people in their professional practice. These strategies promote the development of self-regulation in young people, reduce conflict between young people and adults, and improve relationships. Professionals who attend training will receive all the strategies and materials they need to use PAX Tools with the young people they work with right away.

## About PAX Tools for Human Services Training

The PAX Tools for Human Services is available in a live virtual, in-person, and self-paced online format. This training consists of 8 content hours where participants learn how to implement eleven evidence-based strategies in their professional practice during normal interactions with young people. Participants will receive all the materials needed to implement PAX Tools with the children they serve.

9 out of 10

PAX Tools participants report less conflict in their setting

## Resources for PAX Tools Human Service Professionals

Participants in this training receive a PAX Toolset full of items to support implementing PAX Tools in professional settings. Participants are also eligible to attend free monthly online PAX Tools Talks with PAX experts and PAX Tools users around the world.

## Who Should Attend PAX Tools for Human Services Training?

Participants might serve in one of the following fields:

- ✓ Behavioral Health
- ✓ Case Management
- ✓ Child Life
- ✓ Child Welfare
- ✓ Juvenile Justice
- ✓ Peer Support
- ✓ Social Work
- ✓ Wraparound
